

TAIPEI INNOVATIVE TEXTILE APPLICATION SHOW 2025 台北紡織展 OCTOBER 14-16

The 29th Taipei Innovative Textile Application Show (TITAS) will take place from October 14–16, 2025, at Hall 1 of the Taipei Nangang Exhibition Center. With a focus on "Innovation and Sustainability," TITAS will showcase the global textile industry's advancements in textile innovation and research. The event will explore three key themes: "Sustainability, Functional Applications, and Intelligent Manufacturing," presenting a wide range of high-performance textiles designed for sustainability and practical use. Exhibitors will also highlight the latest smart manufacturing solutions, including textile machinery and sewing equipment, positioning TITAS as a vital platform for connecting and expanding the global textile industry's value chain.

Focus:

- Sustainability
Focus on sustainable materials and sustainable manufacturing materials to reduce waste, cut carbon emissions, and use low-impact processes
- Functional applications
Display textiles with several uses for sporting and industrial applications
- Intelligent manufacturing
Build a resilient supply chain by implementing cutting-edge automation systems & solutions to achieve lean manufacturing

Highlights:

- 400+ exhibitors from around the globe
- 35,000+ visitors

Exhibits:

Fibres, filaments, yarns, fabric, apparel, accessories, trims, dyestuffs and auxiliaries, sewing equipment, textile machinery, textile-related technology and services

Participation Fee:

Standard Booth (9m²) : US\$3,300

Raw Space (9m²) : US\$3,000 (Minimum 18m² required)

Spotlighting Decarbonization and Circularity

Event Summary

The 28th Taipei Innovative Textile Application Show (TITAS), organized by the Taiwan Textile Federation, concluded successfully on October 17. This year's event featured 385 exhibitors from 11 countries, showcasing key innovations across the textile value chain as the industry strives toward net-zero carbon emissions. The show attracted 31,500 visitors from 43 countries, with the top ten overseas buyers from Japan, Hong Kong, South Korea, Mainland China, the United States, Vietnam, Thailand, Sri Lanka, Germany, and the Philippines. TITAS generated an estimated \$50 million in business opportunities and showcased emerging trends in sustainability, functional textiles, and intelligent manufacturing.

Core Themes and Innovations

TITAS 2024 centered on three key themes that are shaping the future of the textile industry:

- Sustainability: Exhibitors showcased eco-friendly materials and technologies, such as post-consumer, bio-based, and low-impact production, supporting global sustainability goals.
- Functional Applications: Exhibitors focused on various needs, including sports, health, safety, comfort, and medical care, featuring high performance materials, along with safety fabrics for industrial applications.
- Intelligent Manufacturing: Smart manufacturing solutions utilizing AI, IoT, and data analytics were presented to enhance efficiency and drive the industry toward a greener, smarter future.

Sustainable Innovation: The Circular Economy in Textiles

A series of seminars at TITAS highlighted innovations in sustainable technologies, with industry experts discussing the role of AI in fabric development and design. These sessions offered attendees valuable insights into emerging market opportunities and new business trends. A key highlight of the event was the "Sustainable Landmark" area, featuring a striking sailboat art installation made from recycled textile materials. This area emphasized the event's commitment to sustainability, showcasing initiatives focused on clothing recycling and the circular economy. The exhibit brought together fiber manufacturers, textile mills, and garment producers, all working towards a more sustainable future. In line with these efforts, all materials used in this area, including displays and garments, were intended for recycling, reinforcing TITAS's commitment to eco-conscious practices.

Global Networking and Collaboration

As global demand for sustainable and innovative textiles rises, TITAS has become a vital platform connecting local manufacturers with international buyers and partners. In response, international delegations and brand buyers from major markets are exploring new procurement opportunities, driving business expansion and forging partnerships around cutting-edge innovations in sustainable textiles. TITAS enhances this experience by conducting more than 800 one-on-one business meetings to facilitate meaningful connections between manufacturers and buyers.

Looking Ahead: TITAS 2025

TITAS 2024 proved to be a pivotal event, showcasing cutting-edge textile solutions, fostering global partnerships, and promoting sustainable development in the industry. Looking ahead, the 2025 edition will take place from October 14 to 16 at the Nangang Exhibition Center Hall 1, offering another key platform for the global textile community to collaborate and explore the future of sustainable innovations.

Facts & figures of TITAS 2024

Exhibitors

Distribution	Company	Share %	Booth	Share %
Domestic	342	88.8%	915	92%
Overseas	43	11.2%	75	8%
Total	385	100%	990	100%

Exhibits

Product Category	Company	Share %
Apparel textiles	145	38%
Trimmings	54	14%
Fibers, filaments & yarns	51	13%
Textile machinery & sewing equipment	35	9%
Textile-related services	35	9%
OEM & ODM for apparel & accessories	26	7%
Home textiles & technical textiles	25	6%
Dyestuffs & auxiliaries	11	3%
Textile inspection & certification	3	1%
Total	385	100%

Purchasing Products

Product Category	Share %
Textiles for clothing use	27%
-Functional fabrics	(12%)
-Fashionable fabrics	(6%)
-Fibers	(5%)
-Yarns	(4%)
Ready to wear & sweater	23%
Industrial textiles	22%
Accessories	15%
Textile machinery & sewing equipment	4%
Textile Related Services	3%
Upholstery textiles	2%
Trimmings	2%
Nonwoven textiles	1%
Inspection & certification	1%

Visitors

Distribution	Visitor no.	Share %
Domestic	29,008	92%
Overseas	2,520	8%
Total	31,528	100%

Top ten countries & regions by number of visitors

1. Taiwan	6. U.S.A.
